

LAKE ORION COMMUNITY SCHOOLS: WHERE OUR FAMILIES AND SCHOOLS ARE LOCATED

This map provides an accurate representation of where the School District's families with children in grades K-4 currently live, noted with black dots, in relation to our seven existing elementary schools. The colored circles represent the $\frac{1}{4}$ mile "walking" radius for each school. Students would not be expected to walk across a major road, such as Lapeer Road, to attend school. For orientation purposes, the blue circle and pink dot in the bottom left corner represents Carpenter Elementary. The yellow circle and green dot in the upper right represents Blanche Sims Elementary. The pink circle and orange dot represents Pine Tree Elementary.
