

Dear Lake Orion Schools Stakeholder:

This year, Lake Orion High School will host the first-ever Career Day, where our eleventh-grade students will have the opportunity to job shadow a professional in their potential career path on May 29. In order to build this program around our students, it is important we have community support. If you are interested in participating, or would like more information regarding Career Day and the program, please take a moment to fill out this survey.

We know that Career Day will be a once-in-a-lifetime opportunity for our students to experience careers first-hand. We are asking Mentors to host two or three students at their place of work, showing them the scope of your career, and allowing them to get a taste of what that this career might be like in the real world.

If you are interested in hosting students, please click on the following link:
